Michael Jenkins

Housing, Human Services, Health and Culture Committee

Amendment to CB 117569 – 10 year program evaluation requirement

Section 19.

After the initial 10-year period for inspecting all registered residential properties has occurred, the Council will conduct an evaluation of the Rental Inspection Program. As an element of this evaluation, the Council will consider all data or information submitted to the Department when considering if all rental properties should continue to be inspected in the future, or if an alternative approach to inspecting rental properties should occur.
